

" One Man and a Hammer is the answer to the dreams of every woman who thought of a butter knife as a screwdriver and a shoe heel as a hammer. Because he's friendly, honest, and respectful, I have retained the services of Mr Gallese for everything from the installation of new outer doors, to attic insulation, to the installation of over 500 sq ft of Pergo wood flooring. No other firm comes close to his exacting standards and more-than-fair pricing. This Fall season calls for new kitchen countertops, and I wouldn't trust anyone else for the job ! "
